4 in ONE
One Installation

World Leader in Panoramic Cameras.

Maximize ROI with 4 cameras in 1 installation. The MEGApix® Pano 48MP™ resolution multi-sensor camera produces 180° views at 15fps (30fps at 32MP) via a single PoE Plus connection. The camera is also available at 21 megapixel resolution.

These cameras are protected by an IP66 certified enclosure with anti-reflective glass and CleanView™ self-cleaning technology.

Zoom into the forensic clarity of 48 megapixels

180° 3-sensor panoramic cameras

Panoramic cameras produce clear high-resolution video images at an 180° viewing angle, increasing the camera's ROI by offering enhanced detail and image clarity for monitoring large areas from a single camera.
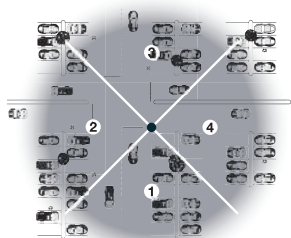

IP and HD over Coax™ models available.

Camera-as-a-Server (CaaS)

CaaS

Edge cameras provide small-scale applications flexibility having video and recording in the same hardware, with no need for a dedicated server.
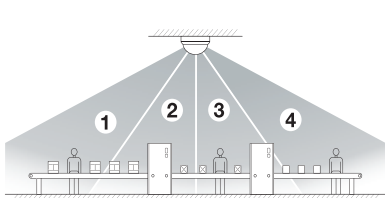

Blackjack® NAS

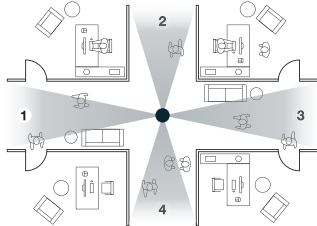

4-sensor, user-configurable cameras

User-configurable multi-sensor cameras offer limitless flexibility for a user-friendly and ROI driven solution. Each sensor is easily positioned independently with magnets on a ring. IP and HD over Coax™ models available.
