TD-305 TRANSACTION DRAWER

# TD - 305

## TRANSACTION DRAWER

- The TD-305 leads the way in speeding transactions by providing a "Customer Send Button" on the face of the drawer and enables self service

- Split door design provides high teller visibility of contents

- Converts easily to manual operation in case of loss of power

- Heavy duty "industrial style" rail system designed for constant heavy use

- Optional built in heater provides comfortable use in colder climates

- Approximately 1000 cubic inches of cargo area provides ample room for commercial deposit bags or full boxes of rolled coin

- Automated teller door
